

DZ-770 Brick Shape Bag Rice Vacuum Packing Machine

The DZ-770 floor type brick shape bag rice vacuum packing machine is suitable for rice, bean, wheat products shaping vacuum sealing and packing. The brick shape bag rice vacuum packing machine can work for all the different thickness vacuum packing materials transparent vacuum bag (nylon). The brick shape bag rice vacuum packing machine has one sealing bar 770mm. The sealing time and vacuum time can be adjusted. The vacuum packing machine will be packed in export wooden case.

The rice vacuum machine is a smart device, which is mainly manifested in the aspects of small structure, excellent performance, convenient movement, single-chamber opening, and large vacuum chamber. In addition, it is a general-purpose device, many products on the market can be packaged with it, and its packaging effect is relatively good, and its power consumption is relatively low compared with other devices. In addition, the whole machine is made of stainless steel, which is very convenient for equipment cleaning.

The vacuum packaging machine has all the performances of a vacuum packaging machine. After its vacuum packaging, the product is oxidized, mildewed, moth-eaten and damp, which can also extend the storage period of the product. Its operation process is also very simple. The operator only needs to press the vacuum. The chamber cover can be evacuated and filled with inert gas, sealed, printed, cooled, and exhausted according to the preset procedure. But its heat sealing power is smaller and power consumption is lower. And the equipment can be specially customized according to the needs, for example, the size can be customized, and the heat seal can be configured with 1 or 2 according to the needs.

Technology data sheet:

Model	DZ-770 brick shape bag rice vacuum packing machine
Voltage	AC220V/50Hz 110V/60Hz
Motor Power	1000W
Sealing Power	900W
Ultimate Vacuum Pressure	1Kpa
No.of Sealing Bars for Each Chamber	1Pcs
Chamber Dimension (LxWxH)	840mm*650mm*130mm
Sealing Length	770mm
Sealing Width	10mm
Vacuum Pump Rate	20m ³ /h
Material for Vacuum Chamber	Stainless steel 201
Dimension (LxWxH)	1000mm*750mm*950mm
Net Weight	180Kgs
