

Blister Packing machine DHP-220

Blister packing machine up to 200 blister/min, 150cutting / min, stable cutting speed is 90~100 cutting/min. special hard aluminum for the forming format, easy handling. max forming is 180x210mm.

Application:

Mainly for pharmaceutical, food, industrial compression, equipped with newest technology, fully automation control, roller sealing.

Features:

- Fully comply with GMP requirements.
- High standard material, stainless steel design, very stable and robust mechanical design.
- Easy to operate, equipped with self expansible shaft for forming foil, Siemens PLC system to control, easy to setup all parameters, different user level administration

Main data :

Model		DPH-220
Data		
Max forming area		180x210 mm
Max forming depth		12 mm
Max Cutting speed	Capsule	150
	Pill	150
PVC shaft diameter		70~76 mm
Max forming stepping distance		210 mm
Max outside diameter	PVC/PP/PVDC	400 mm
	Aluminum foil	250 mm
Air consumption		50 L/min
Max material width		210 mm
Cooling water consumption		3.2 L/min
Power		7 KW
Dimension		3130x975x1850 mm
Weight		Approx.. 2350 kg
