

Semi Automatic Vertical Paste and Liquid Filling Machine AFM-ZC

Vertical Paste Filling Machine body pulley design is easy to move, light and convenient, and easy to operate. Made of 316L& 304 Stainless Steel. 30L Hopper for Paste Filling, There is a self-suction port on the side for Liquid Filling.

Main Features:

1. Hopper is 30L/35L, can be customized.
2. Piston cylinder control volume, High accuracy, the error is only 1%, filling nozzles can be customized.
3. Pedal and Automatic filling are available.
4. Fully pneumatic control, doesn't need electricity, Safe and easy to operation.
5. Pneumatic components use Taiwan's AirTac. More durable.
6. Movable wheels
7. Widely used in a variety of liquids and low-viscosity products, such as Hand Sanitizer, sanitizer gel, liquid detergent, liquid soap, shampoo, shower gel, drinking water, lubricating oil, shoes oil, kepchup, cosmetic face cream, sunscreen...

** Noted: Cannot be used for non-liquid pastes (if you have no idea, kindly inquiry us and show me your product)*

Parameter of Vertical Filling Machine:

- Dimension : 400x300x1680mm
- Air Pressure : 0.6-0.8MPA
- Air Consumption : $\leq 0.1\text{m}^3/\text{min}$
- Filling Volume : 10-100ml, 25-250ml, 50-500ml, 100-1000ml, 500-5000ml.(please kindly let us know your bottle size and bottle volume, thank you ;)
- Capacity : 10-30pcs / min
- Can be equipped with Feed Pump, Semi-automatic Capping Machine, Semi-automatic Flat Bottle Labeling Machine
