

Automatic Beer Filling Machine (BGF24-24-8)

This Machine mainly used in the beer filling operations, the three function of bottle washing, filling and capping are composed in one body of the machine, the whole process is automatic, it is conveniently trunked to adjust the machine to fill various types of bottles, the filling operation is faster and more stable due to the advanced Germany filling valve technology. The famous brand programed controller (PLC) is adopted to control the machine runs automatically.

Description

1. Water distributor, bottle clamp, upturn plate, guide rail, protection cover, spraying device
2. All 304 stainless steel rinser heads, water spray style inject design, more save water consumption & more clean
3. 304 Stainless steel Gripper with plastic pad, ensure minimal bottle crash during washing
4. 304 stainless steel washing pumps
5. All food grade SUS304/316 design
6. Effectively clean bottle and save water
7. Resting waiting for water drops

Application:

Function: washing-filling-capping system	Control: PLC
Suitable: PET bottle with screw cap	Bottle Size: 200-2000 ml
Filling System: Isobaric Filling	Capacity: 5,000-6,000 BPH For 250-500ml
Application: Beer	

Technical parameters:

Model	BGF24-24-8
Capacity: (for 250-500ml)	5000-6000 BPH
Suitable bottle shapes	PET Circular or square
Bottle diameter	50-120 MM
Bottle Height	150-320 MM
Compressor air	0.3-0.7MPA
Washing Medium	Aseptic Water
Washing pressure	0.06-0.2mpa
Application	Beer
Power	4.5kw
Overall Dimensions	2900*1900*2250 mm
Weight	3500kgs
