

BPM-20 TF Vertical Small Instant Coffee Packaging Machine

Application:

High-speed powder packing machine is widely used in food factory, chemical factory, suitable for packing all kinds of powder products, such as rice flour, coffee powder, sulfur powder, milk powder, seasoning powder.

Features

1. Computer control and English-Chinese touch screen for easy operation without stopping the unit.
2. Intelligent PID temperature controller for easy adjustment and good application to various laminated film and paper.
3. Packaging diversification, such as back-seal bag, 3 sides or 4 sides sealing bag, linking bag, hole punching bag etc.
4. Full automation from bag making, measuring, filling, sealing, counting and date printing.

Product Information

Automatic powder filling machine (model: XH-20FF) adopts voluming measurement mode and combined with a microcontroller. It is with automatic quantitative, automatic filling, automatic error correction, count, clear material, and other functions.

The powder filling machine is suitable for condiments, natural flavoring, food additives, flavors and fragrances, flour, milk powder, protein powder, solid drink, sugar, monosodium glutamate, pesticides, veterinary drugs, detergents, enzymes, feed additives, chemicals, new building materials and other powder (powder, superfine powder), mixing powder materials quantitative packaging

Parameter:

Model	BPM-20 TF
Packing speed	30-60 bags/min
Range of measurement	3-150ml
Bag size	(L)30-150mm (W)30-140mm
Power	1.9KW
Total power	220V/50HZ
Net weight	300kg
Overall dimensions	(L)710*(W)960 *(H)1700mm
