

## Sugar/Salt Ketchup Packaging Machine DCK-240-1

### Description:

#### 1. Granule dosing system – cup kind

It is volume way not weight. We make cup sets according to different material's density and requested weight.

#### 2. Date coding ribbon printer

It is heating code printer with three lanes. Each lane can put 13 codes(each code W2mm H3mm). And it is very easy to change codes(0-9, A-Z).

### Features:

This series pack granule products, such as seasoning, monosodium glutamate, sugar, salt, tea, desiccating agents, seeds and beans.

### Technical specification:

Model	DCK-240-1
Specification	Zigzag cutter
Method of Measurement	Cup Type
Range of Measurement	1-80ml
	Single layer measuring plate divided into six equal parts
	Unadjustable cup for 5ml and below
Packing Speed	40-100bag/min(depend on material filling amount and fluidity)

Bag Size	W:10-120mmL:30-170mm Max. Bag width is 100mm of 4-side sealing
Sealing Type	3-side/4-side sealing with zigzag cutter
Total Power	3-side sealing:1400W4-Side sealing:1800W
Voltage	380V or 220V made accordingly
Machine Weight	200kg
Machine Size	625x730x1780mm
