

ZS-YT80 Single Nozzle Essential Oil Peristaltic Pump Liquid Filling Machine

The main advantage of this machine is that the liquid will not pass through the pump during working. This ensure the cleanliness of the product. This machine can be used to fill essential oil, milk, beverage, solvent etc.

Technical Parameters:

- Voltage:AC220V /110V
- Power:100W
- Filling Range:3-2500ml
- Max Suck Distance:2M
- Max.flow rate:2.5L/min
- Interior diameter of filling nozzle:4mm / 6mm/8mm
- Memory Function out of power:Available
- Anti-dripping Funtion:Available
- Net weight/Gross weight:10.5kg/12.12kg
- Package size:450*410*310m
