

DXDC15 Tea Bag Packing Machine

Model DXDC15 Tea bag packing machine is our newest model, and features filling, heat sealing, threading, labeling and over-wrapping functions. Meanwhile, it also has an adjustable loading system for filling different sized tea bags. Adopting sealing pads in place of the sealing rollers used in machines of previous generations, this new system greatly improves the machine's flexibility and enables use of different packaging materials. Main materials include paper / PE, plastic / foil / PE and plastic / PE.
