

## *S600 Model Fully Automatic Horizontal Wrapping Machine*

### **Product Application**

1. Horizontal pallet stretch wrapping machine use LLDPE stretch film as the main packing material to wrap the bulk cargos stacked on the pallet.
2. Film provides extra support during transportation and storage to protect them from dust, moisture or damage.
3. The pallet wrapping machine has been widely used in industries such as glassware, tools, electric & electronic, paper, pottery, food & beverage, et.

### **Main Features**

1. High efficiency and low electricity-consumption, convenient in operation.
2. The wrapping type and times can be designed on customers' requirements.
3. Photoelectric sensor test pallet length automatic
4. Programmable control and frequency converter is available.
5. PLC control
6. Pallet stretch wrapping machine soft start and soft stop.
7. Suitable for pack wooden, aluminum, pipe and all long products
8. Fully automatic cut and clamp film

## Technical Data

| <b>Model</b>           | <b>Smart Wasp S600</b>             |
|------------------------|------------------------------------|
| Maximum wrapping size  | 0.5*0.5 m (WXH) 800mm(Diameter)    |
| Ring speed             | 0-30r/min                          |
| Ring diameter          | 800mm                              |
| Maximum loading weight | 500KG                              |
| Output height          | 800mm                              |
| Motor drive            | 1.5KW                              |
| Put film & cuft film   | Automatic                          |
| Film                   | LLDPE                              |
| Film Width             | 250mm                              |
| Input conveyor         | 7m input roller conveyor           |
| Output conveyor        | 7m output roller conveyor          |
| Guide rail             | Included                           |
| Control type           | PLC                                |
| Safety door            | Included                           |
| Machine Weight         | 600KG                              |
| Machine Size           | L:14950mm W:2460mm H:2550mm        |
| Language               | According to customer requirements |
| Voltage                | 380V/220V/110V/50HZ /60HZ 1 P/3P   |
