YX-HT-02 Semi-Automatic Piston Liquid Mixing Filling Machine with heating function

YX-HT-02 Semi-Automatic Piston Liquid Mixing Filling Machine with heating function characteristics:

- This series of machine with heating function is reasonable design, compact, easy to operate, the pneumatic part adopts Taiwan AirTac, SHAKO pneumatic components.
- Material contact parts are made of 304 stainless steel material, meet the GMP requirements.
- Filling volume adjustment handle, filling speed can be adjusted with high filling accuracy.
- Filling head adopts anti-leakage, anti-pull and lifting filling device. Hopper with adjustable speed stirring device, so that the material is more uniform filling.

Model	YX-HT-02
Gas pressure	0.4NPA-0.6NPA
Filling range	5-100ml 10-280ml 20-500ml 100-1000ml 500-2800ml, 1000-5000ml
Filling precision	≤± 1%
Hopper volume	50L
heating temp	0-100°C
Filling speed	≤50 times/min
Weight	50KG
Size	1200mm×300mm×700mm
Working way	By air compressor
