

Fully Automatic Strapping Machine

Fully Automatic Strapping Machine is robust, durable, and efficient with auto reefered function. The particular strap guide system agrees for wider range of straps in order to create the cost. PLC Control/Solid State Relay output system approved the longer shelf life. This machine has instant heating, quick and secures strapping and meant for assimilation into production line or stand alone machine. This machine suits for light product as well large and heavy product etc.

Features:

- Strap at quick speed and with high efficiency. Only takes 1.5 seconds for strapping one polypropylene strap.
- Instant heating systems, low voltage, light, safety,
- Automatic stopping devices save electricity and make it practical.
- Electromagnetic clutch, quick and smooth. Coupled-axle transmission, quick speed, low noise, low wear and tear, and low breakdown rate.
- Strap width from 6 to 15 mm adjustable.

Product Details:

Model	IP 501 F
Capacity	Customized
Working Table Height (mm)	830
Weight (kg)	248
Strapping Speed (seconds)	2 ~ 15
Power Source (V/Hz)	440/50
Min. Strap Size (mm)	80 x 50
Strap Width (mm)	9 ~ 15
External Dimension (mm)	1420 x 650 x 1565
Max. Strap Size (mm)	800 x 600
Strap Force (Newton)	25 - 700
