

TFP-SF3/5 Automatic Bucket Type Screw Conveyor For Powder Materials Feeding And Conveying

Screw conveyor is applicable of conveying various of powder materials to form a complete set of packaging system. With the level sensor to realize the auto level tracking feeding and controlling. It is the most common feeding device in the powder feeding and powder packaging industry, which can be applied to the quantitative measurement of a variety of powders or fine particles such as flour, coffee powder, milk powder, tapioca flour, seasoning powder, chemical powder and other materials.

Technical Parameters

Model	TFP-SF3	TFP-SF5
Feeding height	normal 2meter(or customized)	normal 2meter(or customized)
Bucket volume	120L or customized	120L or cusomtized
Pipe diameter	114mm	141mm
Production capacity	3m3	5m3
Power Supply	380/220 50HZ	380/220 50HZ
Total Power	1KW	1.5KW
Machine Weight	150kg	220kg
Material	S.S304 or customized	S.S304 or customized
