

SSL-1A Capsule Counter

SSL-1A capsule counter is widely in small-scale production in hospital, pharmaceutical factory, R&D center for capsule counting. SSL-1A intelligent automatic capsule counting and filling machine adopts proprietary technology, PLC control, touch screen operating system. It can count and fill automatically with high accuracy. Feeding turntable, capping machine and labeling machine are available to connect to a line.

Features:

- Wide application for all size capsule
- High counting precision
- PLC control and touch screen
- Adopt illuminating techniques
- Automatically alarm when no bottle and bottle turned over
- Easy to change mold within 5 minutes
- Stable operation and low noise
- SS304 stainless steel frame and contacting parts
- Meets GMP standard

Technical Parameters:

Model	SSL-1A
Change mold time	5-8 minutes (beginner)
Capacity	20,000-40,000 capsules/h
Suitable capsule size	000#, 00L#, 00#, 0#,1#, 2#, 3#, 4#, 5#
Max. bottle diameter	130mm
Voltage	220V, 50Hz, 1P
Total power	1.2kw
Air pressure	0.03m3/min; 0.7Mpa
Vacuum pump	40m3/h
Dimensions	1300x600x1400mm
Weight	150kg
