- ◆ With auto wipers input, wipers checking, and capping function. Also it has option on program to set functions.
- ◆ Material tank is 15 L, with heating, mixing, and pressuring functions.
- ◆ This machine adopts piston filling system. filling parameter is able to set on touch screen.
- ◆ This machine is made from servo motor driven, materials sucking, lifting and capping system.
- ◆ Wipers are fed through vibration table.
- ◆ With weigh checking device to remove over weight products and not enough product.

Technical Parameters

Model 型号	JR-02M/L
Outer dimension 外形尺寸	1200×800×2080mm(L×W×H)
Voltage 电压	AC220V, 1P, 50/60HZ
Power 功率	7KW
Air supply 气源需求	0.6-0.8Mpa, ≥800L/min.
Output 产能	28~36pcs/min. (Acc. to the speed of manually container feeding)
Cleaning time 清洗时间	30min.
Weight 重量	700KG
