

ZLDBZ008 Fully automatic U-shaped garlic sauce, tomato sauce and honey stand up bag packaging machine

Scope of application: It is suitable for the measurement and packaging of granules, liquids, powders, semi-fluids, fluids, etc. In food and industry (depending on the characteristics of the material that changes the feeding device), with a wide range of packaging, suitable for materials of various shapes, forms and properties.

Features

1. The operation is intuitive and convenient. It adopts 7-inch touch screen PLC control and human-machine interface operating system. It can be easily adjusted, and the variety changes within 10 minutes. Finished products are suitable for different types of packaging bags. Touch screen electronic scale measurement and blanking mode (simple operation and high precision).
2. The equipment meets the food machinery hygiene standards, and the 304 stainless steel or other materials in contact with the equipment meet the food hygiene requirements to ensure the hygiene and safety of food.
3. The degree of automation is high, unattended during weighing and packaging, automatic alarm in case of failure, and the equipment has a transparent plexiglass protection door. Oil-free vacuum pump is used to avoid polluting the production environment.
4. Packaging bags: pre-made bags, back-sealed bags, four-side sealed bags, ironing bags, serrated bags, etc.

Technical Parameters

Automation level	Fully automatic
Product name	Soy sauce liquid bag feeding packaging machine
Power	1.4(Kw)
Weight	370(kg)
Applicable industries	Food, liquid
Overall dimensions	1080*880*1570(mm)
Finished bag size	Outer bag: 115-150mm (mm)
Function	Filling, metering, sealing and filling
