

AS2000P Automatic Liquid Packing Machine

AS2000P automatic liquid packaging machinery are widely used for various kinds of liquid packaging, such as milk, soybean milk, fruit juice, ice drink, soy sauce, vinegar and wine. It can automatically sterilized by ultraviolet radiation, bag molding, print the code, precisely fill, seal and cut at the same time. The products have been long-tested and its performance enjoys a very high reputation from our clients.

Features:

1. PLC controller and a pattern calibration photoelectric controller device ensure the patterns being cut accurately.
2. The machine can finish the processes of pouch forming, filling, sealing, cutting, and date printing automatically.
3. It is suit for both single layer PE film and laminated film.
4. Quantitative piston pump filling ensures packaging volume adjustable, within accurate range.

Specification:

Model	AS2000P
Capacity	1500 bags/Hour
Volume	200ml-1000ml can be adjust
Power	220v/380v 1.8kw
Firm width	320mm / 240mm
Weight	500kg
Size	1050*870* 2100mm
