

CSC-50A Automatic Cartoning Machine (Vertical Type)

The cartoning equipment applies the vertical automatic production operation. The equipment is suitable for more types with medium capacity products

It is widely applied for round, square solid containers and tubes cartoning procedure.

For those carton dimensions within machine applicable range, the correspondent mold and minor tuning is necessary for the different products.

Specification

Model	CSC-50A Automatic Cartoning machine (Vertical Type)
Working Capacity	20-60 carton/min
Carton size range (WxDxH)	20-80 x 20-80 x 60-200 (mm)
Power Consumption	220V single phase, 50/60HZ
Air Consumption	90L/min @ 6 Bars
Machine Dimensions (LxWxH)	2375x1310x1288 (mm)
Machine Weight	450KGS
