

LCGF-series Plastic Bottle Filling Aluminum Foil Sealing Machine

LCGF series full automatic rinsing bottle, filling and aluminum foil sealing machine is used for production of bottle of milk, lactate milk, soy milk, juice etc. The machine completes process of vacuum negative pressure filling, automatically form cap, capping (optional) and electricity heat sealing automatically. The machine adopts PLC control system, electronic and temperature control system, pneumatic control and automatic lubrication. The all parts of touching of milk is stainless steel 304, besides, the valve of milk is stainless steel 316. because of the form is rotary automatically filling and sealing machine, the milk touch the air time is very little, so it could guarantee the quality of milk.

Technical Parameters

Model	LCGF14-14-10-1	LCGF18-18-12-2	LCGF24-24-18-2
production capacity(B/H)	2000-4000	5000-6000	8000-10000
bottle high(mm)	150-310		
bottle diameter(mm)	Φ50-Φ90		
filling volume(ml)	200-1500		
power(kw)	5.5	8.5	11
dimension(mm)	2500*1750*2400	3000*2050*2400	3500*2250*2400
weight(kg)	3500	4800	5500
