

FMQ-W Multiple Electronic Weighing Quadro Packaging Machine

The FMQ-W packaging machine is designed for high-precision packaging, ensuring fragile products like sugar are handled with care. Its unique 25% angle incline minimizes product disintegration and breakage during the packaging process. Controlled by an independent microprocessor, this packaging machine offers reliable performance. The touch screen interface simplifies operation for sugar packaging and other delicate items.

- Precision Handling: Reduces breakage with a specialized incline design.
- Independent Control: Microprocessor ensures consistent packaging machine performance.
- User-Friendly Interface: Touch screen simplifies sugar packaging operations.

Technical Specifications:

Width	2950mm
Length	2500mm
Height	3900mm
Weight	1700kg
Production Speed (Number/Min)	75
Package Length	60mm - 320mm
Package Width	60mm - 190mm
Film Coil Diameter	300mm
Film Coil Width	130mm - 580mm
Power Consumption	7.5 Kw
Operating Voltage	380V 3 Phases 50Hz
Air Consumption	350 Lt/Dakika - Minute
