

SA-321 PE Shrink Wrapping Tunnels for PE film

The PE film shrink warp tunnels are used for many products such as: drinks, beverage, household items, industrial items...etc. The most key factor of shrink wrapping machine manufactures is to.

Machine features

- Apply with sleeve wrapper, suitable for PE film.
- Heat circulation for evenly shrinking performance.
- Fiber tube on conveyor shaft with long time operation durability.
- Adjustable fan direction at 2 sides.
- Adjustable operation speed & shrinking temperature.
- Stable shrinking performance with constant temp. control system.
- Inner tunnel related heating parts are mainly made by stainless steel.
- Cooling fan in the rare of tunnel.
- Machine frame made by steel with powder painting.

Specifications

Model	SA-321 PE
Machine	3600 x 1440 x 1900mm
(L x W x H)	
Chamber	2000 x 900 x 500mm
(L x W x H)	
Max. product size	630 x 400mm
(W x H)	
Power consumption	48KW
Power	3P 220V / 3P 380V / 3P 380V 4W (upon request)
Speed	0-8 M/min.
Optional Device:	
intensive shaft, stainless steel frame, roller conveyor, auto stop(by timer)...etc., other requirement available upon request.	
*Other package size available upon request.
