

UT0AXG8 Trigger Spray Cap Tightening Machine / Toilet Cleaner Bottle Capper

Trigger Spray Cap Tightening Machine / Toilet Cleaner Bottle Capper is applicable for twist off cap, lug cap, screw cap, continuous thread cap, ribbed cap, dome cap capping & closing etc.

Features:

1. The machine is novel in design, intelligent in mechanical torque control, and convenient in operation and adjustment;
2. Adopts 304 stainless steel, in line with GMP requirement;
3. The bottles in the process of forwarding, the vibrating bowl automatically feeding the caps, the caps are automatically tightened by four sets of cap rubbing wheel. The machine can be used independently single, also can be connected with the other production line;
4. Automatically feeding system has lifting type, swash plate type, vibration type, etc. according to the actual needs of matching. Can be selected according to the actual needs.

Technical Parameters

Material	Stainless Steel
Bottle capping height	50-400mm (Adjustable)
Bottle cap diameter	30-80mm (Adjustable)
Bottle diameter	70-110mm(Adjustable)
Capping speed	25-30 bottles/min
Power	1.5kw
Weight	104kg
Size	2000(L)*700(W)*1600(H)mm
Voltage	220V,50Hz
