

CN-4520PD Heat Shrink Tunnel Machine

Features

- Full re-circulating air chamber
- Digital temperature control
- Adjustable air velocity control
- Different conveyor roller type depends on varies applications.
 - Roller conveyor
 - Teflon net conveyor
 - Mesh net conveyor
- Variable conveyor speed
- Conveyor rollers with silicon sleeve for safety purpose.
- Double entry and exit curtains for consistent temperature
- Automatic shut off after tunnel cool down
- Overheat compensator protection for electrical parts.
- Dual heat insulation plate unable causes around temperature overheat.

Specifications

Model	CN-4520PD
Power Supply	3 phase ,220V/380V
Power consumption	9 kw
Tunnel size	L1000xW450xH200mm
Conveyor speed	2-10 M/min
Conveyor size	L1400xW450xH760mm
Machine Dimension	L1400xW760xH1450mm
