

DZQ-800 Vacuum Food Sealing Machine

The vacuum packaging machine is a large-scale vacuum packaging machine primarily used for sealing composite film packaging materials, suitable for large supermarkets and industrial sites due to its faster pumping rate and customizable options.

Product Description

Advantage

- The vacuum packaging machine can be equipped with single, double, or triple sealing strips, with varying arrangements.
- It offers options for stainless steel or acrylic glass covers.
- Most of the vacuum packaging machine is made from stainless steel.
- It features a detachable new-style sealing strip, allowing for quick and easy replacement of the heating wire.
- The vacuum packaging machine can be fitted with 20m³, 40m³, or 60m³ vacuum pumps.
- It has casters at the bottom for easy mobility.
- The chamber can be customized to a deeper size for better vacuuming of liquids or thick products.
- An optional inflation function is available.

Technical Parameters

Model	DZQ-800	
Voltage	110/220V 50-60Hz	
Pump Power	1.8kw	
Pump Capacity	20m ³ /h (x2) /Option	
Sealing Length(Optional)	1 Seal Bar	800mm (x1)
	2 Seal Bar	600mm (x2)
	3 Seal Bar	800mm (x1) 500mm (x2)
Sealing Width	10mm	
Chamber Size	825x635x100mm	
Dimension	940x720x975mm	
Weight	≈175kgs	
Certification	CE ISO
