

ASL Semi-automatic Aerosol Liquid Filler

ASL semi automatic aerosol liquid filler is suitable for the production of insecticide, air freshener, bakery mould release spray, paint spray and cosmetic spray etc.

ASL semi automatic aerosol liquid filler consists of sprayed carbon steel frame and stainless steel machine parts. It's with filling head, measuring system and full air driven control system included.

ASL semi automatic aerosol liquid filler requires only 1 worker to operate. Liquid product is measured by measuring system before filling into can through filling nozzle, controlled by foot pedal.

ASL semi automatic aerosol liquid filler employs piston filling system for product filling. High accuracy, working speed and stability are guaranteed by it.

ASL semi automatic aerosol liquid filler is a set of simple structure, easy maintenance machine. The maximum output rate could reach 25 cans/min.

Technical Parameters

Model	ASL
Filling capacity	20-450ml (can be customized)
Filling accuracy	$\leq \pm 1\%$
Production capacity	800-1200 cans/hr
Air source	0.6Mpa-0.8Mpa clean and stable air source
Can Height	60~350
Can Diameter	$\Phi 16 \sim \Phi 100$
Weight	about 250kg
Dimension(L×W×H)	900×500×1500
