

SH-FS240LS Automatic Piston Pump Vertical Form Serums Conditioner Liquid Paste Sachet Stick Filling Sealing Machine

This sachet filling and sealing machine has been specifically engineered for optimal filling of pastes, and semi-liquids in sachets in an exceptionally efficient manner. This piece of machinery is highly efficient in many industries, such as cosmetics, food, and pharmaceutical industries, due to its ability to offer precision in filling, sealing, and forming sachets, thus reducing wastage.

Main Feature

- ▶ This machine is designed for packaging liquid or paste into small sachet.
- ▶ Filling is controlled by piston pump, suitable for filling paste like shampoo, cosmetic cream, etc.
- ▶ The hopper has heating and mixing functions. The sealing methods can be customized as needed.
- ▶ This machine can be equipped with a inkjet printer to print production date or batch.

Parameter

- Model: SH-FS240LS
- Power Supply: 220V 50hz/60hz
- Rated Power: 1.5KW
- Filling Range: 1-50ml/bag(customized)
- Sealing Type: 3 Sided sealing
- Bag Size: L:20-165mm, W:15-110mm
- Packing Speed: 30-45 bags/minute (depending on product flow)
- Machine Size: About 700*600*1600mm(L*W*H)
- Machine Weight: About 200kg
