

Semi-Solid State Thick Liquid Filling Machine TNG8012R

Features:

1. Monobloc Design, filling & capping process combine in one machine
2. PLC control Full-automatic working
3. Adopts high precision and high speed ration filling valve make sure the oil level is exact without loss, ensuring high quality filling perfectly.
4. Filling volume adjustable, no bottle no filling, no bottle no capping design
5. Flexible choice, suitable to 0.75 liter to 5 liter PET bottle with various shape, press caps or screw caps capping
6. 304L Stainless Steel Contact parts, fine Polish, Food Grade, easy clean

Name of parameter	Unit	TNG8012R
Number	pieces	12
Filling volume	ml	200-2000, 2000-5000
Production capacity	barrel /h	1800-2800
Quantitative error	%	≤ 0.5%
Source voltage	V	three-phase four-wire system AC220V 380V ± 10%
Consumed power	KW	1.5
Gas supply pressure	MPa	0.55-0.8MPa
Air consumption	m ³ /min	1.8
External dimension	mm	2000*1300*2800
