## DR501 Automatic Double Sided Flat Surface Labeling Machine

### Features:

- 1) It can separate the card steadily, using advanced technology to do it, which is sorting and reverse wheel technology, card sorting rate is far higher than the general card separating mechanism;
- 2) High speed, be aim at labeling the code check on the medicine box, it stable speed more than 150 pieces / minute;
- 3) Widely application, can meet various labeling, such as cards, paper goods, it is suitable for unfold goods labeling;
- 4) Accuracy labeling, using top roller to fix the work piece, smooth transmission, no bending, to ensure the accuracy of labeling;
- 5) Simply adjustment, it has six degrees of freedom can be adjusted, the conversion between the different products become simple and time-saving; Automatic flat surface labeling machine

### Parameters:

Parameter Name	Specific Parameter Values
Labeling Accuracy	$\pm 01\text{mm}$ (except for products & labels' error)
Labeling Speed	40 to 120 pcs / min (related to products' size)
Applicable Products' Size	Length: 40mm ~ 400mm; Width: 40mm ~ 200mm; Height: 0.2mm~150mm
Applicable Label's Size	Length: 6mm ~ 150mm; Width(backing paper): 15mm ~ 130mm;
Machine's Size	Approximately 1600mm × 780mm × 1400mm
	(length × width × height);
Power supply	220V/50HZ
Total Weight	Approximately 180Kg
Applicable label's inner diameter	Ø76mm
Applicable label's outer diameter	Ø 240mm
Voltage	220V
