

# Automatic L-Bar Sealing Machine

The L-729 Automatic L-Bar sealer are an economic, durable and easy to use packaging solution. The machines are controlled via a PLC which allows the operator to set the different times for the sealing operating, the temperature of the blades and also the length of film that is to be used. The machines have a variable speed conveyor which makes the machine, ideal for both manual and automatic feeding.

- Additionally the machine features:
- Quick change over between productions and sizes.
  - Solid knife sealing blades make a consistent seal and are long lasting.
  - Horizontal and Vertical sensors for the packaging of different products.
  - Automatic waste removal system.
  - The L-729 includes an adjustable jaw height and seal centering.
