

Cellophane Wrapping Machine Soap BTB-300A

BTB-300A cellophane wrapping machine is widely applicable to automatic film packaging various single boxed articles with a gold tear tape for easy opening, such as medicine, health-care products, foodstuff, cosmetics, stationery and audio-visual products....

The cellophane wrapping machine is very popular for packing the soap, solid butter and other goods.

Product Features:

1. This machine adopts frequency conversion adjustment device, which can change the packaging speed according to different working requirements.
2. When the size of the package changes, the machine only replaces the mold, and can be adjusted appropriately.
3. Heat sealing temperature adjustable: can change the temperature with the external climate, set the heating temperature, and can maintain within the set temperature range.
4. Feeding device: It consists of a combination of tray and hopper, and the feeding is continuously carried out in a stack.

Technical parameter:

Packing Material:	BOPP Film, Paper complex film
Packing Speed:	10~30 packs/min
Packing Size:	L(100-400)*W(50-200)*H(20-100)mm
Electric Supply Power:	380V 50Hz 3.7kw
Weight:	1000kg
Overall Dimensions:	(L)2350 x (W)1100 x (H)1550mm
