

Horizontal Form Fill Seal Machine DXD-130

The DXD-130 horizontal form fill seal machine automatically packages liquid, powder, or granular products into single or double sachets. This sealing machine can perfectly seal the bottom, sides, and top of the bagged product for a standing pouch. With PLC control, the pouch packaging line moves efficiently from bagging the powdered, liquid, or granular product to packing the bags into boxes or cartons. This automatic packaging machine, designed to prevent corrosion, features a glass cover which prevents dust from escaping.

Main performance parameters:

- Capacity: ≤60 pouches/min
- Pouch size: Width: 60-130mm, Height: 80-180mm
- Volume: 200ml
- Precision: ±1%
- Inner diameter: Φ70-80mm
- Outer diameter: ≤Φ500mm
- Air pressure: 0.5-0.7MPA
- Power source: Three phase AC380V, 50HZ
- Power: 3.5KW
- External dimensions: 2580 x 945 x 1550mm(L x W x H)
- Weight: 1350KG
