

High Speed Total Automatic Tube Filling And Sealing Machine OHMMU-6

The fully automatic filling is servo motor detergent filling line that is designed to fill bottles and jars with products of various viscosity, ranging from water thin liquids to thick creams. They are used in the cosmetic, food, pharmaceutical, oil and specialty industries. These inline piston filling machines come complete with: two to twelve fill heads, a variable speed drive conveyor, adjustable heavy duty stainless steel frame, an easy to operate control panel.

Introduction:

- ◆ Automatic bag feeding, filling, sealing, code printing and outputting
- ◆ The parts that contact materials are all made of stainless steel 316, meeting GMP requirements.
- ◆ Different filling machines are selected according to the nature of materials. The standard configuration is electronic gear pump, and the optional configuration is pneumatic piston pump, which is suitable for filling of facial mask liquids of relatively high viscosity.
- ◆ No filling is carried out if there is no bag. No sealing is carried out if there is no bag. The seal is not sticky to the bag.
- ◆ Operation is controlled by PLC+LCD. The equipment parameters, output and error information are clearly seen on the touch screen.
- ◆ Digital display of temperature control.
- ◆ The electric and pneumatic components are all products of international famous brands.

Technical Parameters:

主要技术参数 TECHNICAL PARAMETER

型号	Model	QHMMU-6
动作流程	Action flow	自动下袋、自动充填、自动封口、成品输出 Automatic bag feeding, automatic filling, automatic sealing, finished products outputting
通道数	Passage number	6(可单独控制 Can control independently)
生产效率	Production efficiency	7000-7500PCS/H
面膜袋规格	Facial mask bag specification	宽95-160mm 长120-220mm 注：可定做眼膜及其它特殊袋型包装规格 Note: Eye masks and other special bag packaging specifications can be made to order.
标准充填泵	Standard filling pump	电子齿轮泵 精准度 Electronic gear pump, accuracy $\pm 0.2g$
电源	Power supply	电源：380V/3Ph/50Hz，功率：7.5KW
气压	Air pressure	0.6Mpa 300L/min
设备尺寸	Equipment size	L2250 × W1050 × 1720(未含爬坡皮带 Not including climbing belt)
