

## *FK603 Semi-Automatic Round Bottle Labeling Machine*

FK603 labeling machine is suitable for labeling various cylindrical and conical products, such as cosmetic round bottles, red wine bottles, medicine bottles, cone bottles, plastic bottles, etc.

FK603 labeling machine can realize one round labeling and half round labeling, and can also realize the double labeling on both sides of the product. The spacing between the front and back labels can be adjusted, and the adjustment method is also very simple. Widely used in food, cosmetics, chemical, wine, pharmaceutical and other industries.

### *FK603 has additional functions to add options:*

1. Add the positioning labeling function, so that the label can be attached to a fixed position of your product.
2. Equipped with a coding machine or inkjet printer, the production batch number, production date, effective date and other information are printed clearly when labeling, and the coding and labeling are carried out at the same time to improve efficiency.

FK603 adjustment method is simple and only needs to move the height of the pressure roller and the width of the hole where the product is placed. The adjustment process is less than 5 minutes, and the labeling accuracy is high. It is difficult to see the error with the naked eye. FK603 covers an area of approximately 0.22 cubic meters. Support custom labeling machine according to the product.

**Technical Parameters:**

<b>Parameter</b>	<b>Date</b>
Label Specification	Adhesive sticker, transparent or opaque
Labeling Tolerance	±0.5mm
Capacity(pcs/min)	15~30
Suit bottle size(mm)	Ø15~Ø150; Can be customized
Suit label size(mm)	L:20~290; W(H):15~130
Machine Size(L*W*H)	≈960*560*540(mm)
Pack Size(L*W*H)	≈1020*660*740(mm)
Voltage	220V/50(60)HZ; Can be customized
Power	120W
N.W(KG)	≈45.0
G.W(KG)	≈67.5
Label Roll	ID:Ø76mm; OD:≤260mm
Air Supply	0.4~0.6Mpa
