

JDZ-120K Vertical Cartoning Machine

JDZ-120K vertical cartoning machine is a high-tech product integrating mechanics, electronics, light and gas. Encasing speed of this automatic cartoning machine is 30 to 120 boxes per minute. Production process of this cartoning equipment includes transmitting of medicine plates and items, transmitting of medicine specification, automatic carton forming and transmitting, encasing medicine plate and folded medicine specification, automatically making batch number and paper tongue sealing on both ends.

Features

1. Adopting human-machine operation system and international famous brand of electrical components such as PLC, frequency inverters, etc., automatic cartoning machine has the functions of automatically counting finished products, displaying fault, sending an alarm and shutting down when overloading.
2. With stable performance and easy operation, automatic cartoning machine can automatically reject cartons lacking of packaged objects or leaflets.

Parameters

Item	Parameters	
Encasing Speed	30-120 boxes/min	
Carton	Quality Requirement	250-350 g/m ² 【Based on carton size】
	Dimension Range (L×W×H)	(65-150) mm × (30-85) mm × (14-50) mm
Leaflet	Quality Requirement	60-70 g/m ²
	Unfolded Leaflet Specification (L×W)	(80-250) mm × (90-170) mm
	Fold Range (L×W)	【1-4】 Folds
Compressed Air	Working Pressure	≥0.6 Mpa
	Air Consumption	120-160 L/min
Power Supply	220V/50Hz	
Main Motor Power	0.75 kW	
Machine Dimension (L×W×H)	2400 mm ×1140 mm ×1800 mm	
Machine Weight	About 1200 kg
