

ZS-600 Servo Packing Machine

Product Usage:

Be used in packaging biscuit, moon cake, cake, bread, instant noodle, soap, frozen food and similar products.

Range of application:

1. Adoption of double variable frequency stepless speed redulating
2. Intellingent control system of human-computer interface; simple parameter setting;
3. Automatic tracing and color code positioning by electric eye: accurate cutting location
4. Positioning halt; prevention of knife adhesion and membrane burning
5. Universal bagger, with convenient and simple operation.

Specifications:

Production capacity		35-150 bags/min		
Package range	Lengthy (mm)	90-270mm	Total power	5.6kw
	Width (mm)	40-200mm	Pow source	220v
	Height (mm)	<60mm	Total weight	650kg
Maximum width of the packing film		450mm	Dimension (L×W×H)	4400*1150*1700mm
