

Heat Sealing Machine YKF-900G

Heat Sealing Machine is specially designed for the bottle or jars heating sealing, to improve the shelf life of the products. Heat Sealing Machine with small size, easy to operate and maintain.

Heat Sealing Machine is widely used in meat, fish, seafood, fruit and vegetables, cooked food, fast food, pastries, and etc areas.

Technical Data:

Model	YKF-900G Heat Sealing Machine
Capacity	8-15 PCS/Min
Accuracy	< +/-1.5mm
Power Supply	Three Phase 380V 50Hz / 220V 60Hz
Air Supply	0.6-0.8MPa
Sealing Temperature	0-300 °C
Power	2.5 KW
Machine Weight	450kg
