

GOLDEN LIN

Automatic Sealing Machine for Plastic Container GL-18304B

Characteristics:

1. Automatic bottle positioning device
2. Roll film stock device
3. Film orientation fixer (Our Patent design, help saving film)
4. Automatic sealing and cutting system
5. Independent temperature controller for each sealing mold
6. Automatic waste film collects system
7. PLC Control system: Made in Taiwan
8. Touch screen control panel
9. Inverter controller: Made in Taiwan
10. Pneumatic system spare parts: ISO Applied
11. Material of the machine stands: Aluminum Alloy
12. Material of spring and screw: Stainless steel (SUS# 304)
13. Transport conveyor (L*W*H): 2000mm* 100mm*1500mm (Conveyor height is adjustable)
14. Conveyor motor: 1/8HP (Conveyor speed is adjustable)

Specifications:

Products Rate :	3,600 Bottles / hour
Bottle size	Diameter 84mm Height 151mm (Suit for one size Bottle) (Different size bottle need to change sealing mold and cutter)
Air consumption	3HP air-compressor
Power	220V, 50/60Hz,
Power Supply	220V/50-60Hz
Machine Dimension	L2000mm * W800mm *H1500mm
