

## Automatic Soybean Milk Powder Vertical Packing Machine HTL-D420

Mainly applicable to powder material (flour, starch, feed, chemical powder and etc.) similar material, like 50g-1000g small bag of material filling.

### Features:

1. Used for measurement of high fluidity or good fluidity powdery material.
2. This machine can be finished the tasks of measurement, fillings, nitrogen filling and etc, and it can be reached the purpose to measure filling material through servo motor to drive screw rotation.
3. It is convenient for cleaning stainless steel hopper, and in line with the safety and health management requirements of enterprise.
4. It has some advantages of sensitive action, fast measuring speed, high precision and stable performance.

### Technical Parameters:

| Model                  | 420                                 | 520                                  |
|------------------------|-------------------------------------|--------------------------------------|
| Packing bag size       | Length:60-300(mm); Width:60-200(mm) | Length:80-350(mm); Width:100-250(mm) |
| Production speed       | 70 bags/ min                        | 60 bags/ min                         |
| Max. Width of membrane | 420 (mm)                            | 520 (mm)                             |
| Air consumption        | 0.6Mpa 0.4m <sup>3</sup> /min       | 0.6Mpa 0.5m <sup>3</sup> /min        |
