

## ***DXDF-350 Medium Bag Powder Automatic Packaging Machine***

DXDF-350 powder automatic packaging machine is suitable for medium bag powder automatic packing. This equipment is mainly applicable to the packing of milk powder, sesame paste, strong bone powder, spices, Ganoderma lucidum powder, granules and other items.

### **Features**

1. The machine adopts automatic computer control, stepping motor pull film.
2. Sealing performance, environmental protection, to avoid leakage, moisture.
3. The use of screw blanking can reduce the measurement error to  $\pm 1\%$ , making the measurement more accurate.
4. The working speed can be greatly improved, eliminating leakage and generating no dust

### **Technical parameters**

- Bag making length: 80-250mm(L)
- Bag making width: 80-160mm(W)
- Measuring range: 100-500g(Max)
- Packing capacity: 30-40bag/min
- Power: 220VAC/50HZ/2.3KW
- Machine size: (L\*W\*H) 1000x950x1800mm
- Machine weight: 350kg
