

SL-SBCY400D Pu'er Tea Block Packaging Machine

Pu 'er tea block packaging machine has been specially improved, so as to better meet the requirements of tea products packaging characteristics, at the same time, improve the packaging speed greatly improve the efficiency of pu 'er tea packaging machine, in order to meet the growing market demand. At the same time automatic packaging to ensure product quality.

The packing speed is up to 260 grains per minute, and we are also developing a faster machine that can pack up to 450 grains per minute.

Technical Parameters:

Packing Speed		260ppm
Tea Block size(L*W*H)	Normal(mm)	25*25*13mm
	customization(mm)	Available
Total power		5.0KW
Power Supply (Customized)		380V 50HZ 3P
Wrapper Material		Foil/PET/Film and so on
Total Power		8.0KW
Compressed Air		0.6Mpa
