

Dry powder filling machine KF01-PD

The equipment is our company in accordance with the latest GMP standard design and development of a latest canning machine, the aircraft using the latest technology, the design is more reasonable, more concise, more solid. Automatically into the tank, measurement, filling, packaging powder granular materials, such as milk powder, protein powder, chicken powder, solid drinks, grapes, rice noodles and so on.

Features

- Using chuck-positioning mechanism, LCD touch screen in English and Chinese, PLC control system, work at a glance.
- The use of cans or bottles of containers, no bottles, lack of bottle filling, can be configured automatically into the bottle into the tank system
- The whole structure, reasonable layout, changing packaging varieties, cleaning and for the convenience of health.
- The use of imported servo motor, speed, torque, greatly improving the packaging accuracy.

Technical Parameters:

Model	KF01-PD FTS
Filling range	20-5000G
Filling speed	20-30bottles/min
Filling accuracy	≤1%
Filling container	different cans and bottles
Voltage	220V/380V,50/60HZ
Power	2 KW
Dimension	1300*1150*2300mm
Weighter	about 500kg
