

Three withers noodle/spaghetti packing machine

Contains:

1. Bulk noodle packing machine: one set,
2. Conveyor line: one set,
3. Weighting machine: three sets,
4. Hoist engine: three sets,
5. Pneumatic linking bucket: three sets

Object:	noodle, Spaghetti
Length of the noodle	200g~500g:(180~260mm)±5.0mm; 500g~1000g:(240~260mm)±5.0mm
Thickness of the noodle	0.6~1.4mm
Width of the noodle	0.8~3.0mm
Packing rate	30~60/min
Weight range	200~500g 200~1000g
Inputting method	number input
Variable setting:	0.1g
Exact value	200~500g , ±2.0g-96% ;
	500~1000g, ±3.0g-96% ;
Dimensions	6700mm×3400mm×1650mm
Voltage	AC220v/50-60HZ/5800W

Advantage

1. Our packing machine use high-quality imported components, Chinese characters supporting touch screen, PLC, which is easy to operate. Machine speed is controlled by inverter and can work synchronized production with other system. With anti-theft device.
2. Adopted latest technology and massif design. Long operating life
3. Weighting machine use Chinese characters supporting touch screen, PLC, which make the packing speed faster and more accurate.

Benefit analysis

1. Spare the manpower, Improve productivity: daily outputting 30t/5 person
2. Saving material resource.
3. Reduce the chance of the long-term contact of human body or still can be opposite through food healthy generation harm.
