

GDF12-1/18-4/24-6 Automatic Craft Beer Canning Sealing Machine

Description:

1. It is applicable for equal pressure filler and capper of carbonated drinks in beer and drink industry. It is a pop canned Beer in the digestion and absorption of advanced foreign and domestic sealing machine on the basis of independent development Of the can filling, sealing unit.
2. Filling and sealing is the overall designed, power system by filling sealing system to Ensure that both the absolute synchronization and coordination. It adopts the advanced machine, electrical equipment, and Pneumatic control technology.
3. It has the characteristics of filling reposefully, high speed, liquid level control, capping Reliably, frequency conversion timing, less material loss. It can equip long-distance control system according to the Customers request. It is the preferred equipment for the medium beer and beverage plant.

Technical Parameter

Model	GDF12-1	GDF18-4	GDF24-6
Production capacity	1000-2000C/H	5000-6000C/H	8000-9000C/H
Filling heads	12	18	24
Seaming heads	1	6	6
Suitable can diameter	53-66mm		
Suitable can height	70-175mm		
Power	0.75Kw	3.7Kw	3.7Kw
Weight	1800Kg	2500Kg	3000Kg
Overall dimention	1750*1140*1950mm	2320*1400*1900mm	2580*1675*1900mm
