

## *KENO-L102 Semi-Automatic Bottle Labeling Machinery*

We can supply packaging equipment and label machines for PLC control. Using the PLC control, the label is neat and precise. It can simultaneously stick 1 - 2 labels on the round body. The spacing between the two labels may adjust at will. It is suitable for the enterprises with many kinds and small quantity. The machine is our proprietary production in China.

### **Technical Parameters**

- Object to apply: Standing and steady round column (double label)
- Dimensions (L x W x H): 530 x 600 x 450mm
- Label length: 15 - 350mm
- Label height: 15 - 130mm
- Object diameter: 45 - 110mm
- Object height: 40 - 350mm
- Power supply: 220V, 50 / 60Hz, 0.2kW
- Weight: 30kg
- Label speed: 0 – 40 pcs/min
