

SLM-150D/250D Bottles and Cap Sleeve Labeling Machine

Double-headed shrink label is mainly suitable for the bottle that needs two labels, such as bottle labeling and bottle cap labeling etc. It can save cost and floor area and increase the production efficiency!

Electrical equipment configuration:

Import high quality PLC, servo motor, servo driver, transducer, human-computer interface operation is automatically adjustable.

Applicable labeling type:

This machine can be customized according to the production requirements, suitable for disposable labeling for beverage, pure water, dairy products, chemical products of various bottle type.

Features:

1. All-cover type stainless steel host machine: the whole machine is waterproof as well as rustproof.
2. Adjustable cutter head: uniquely cyclotron cut-off, double sided cutting edge with a long service life.
3. Two positioning center guide pillar: more stable for label delivery.
4. Synchronous bottle divider: more stable transmission for bottle.
5. Bottom set of label brush: more precision for casting label.
6. Label-controlling electric-eye shelf: unique combination of tail and electric-eye to improve the precision for cutting off the membrane materials.
7. Touch screen control: more humanized operation.
8. Independent feeding material shelf: the position of the material shelf is optional at will.

Technical Parameters:

Model	SLM-150D / 250D
Input Power	1.5kw / 2kw
Input Voltage	3, 380/220VAC
Production Efficiency	2*150 / 2*250 Bottles/ min
Size of Host Machine	L3200mm×W1200mm×H2080mm
Applicable Diameter of Bottle Body	28mm-125mm
Applicable length of Label	30mm-250mm
Applicable thickness of Label	0.03mm-0.13mm
Applicable Internal Diameter of Paper Tube	5' -10' Free Adjustment
