

## *CVE-100(CE) Vertical Type Cartoning Machine*

The Vertical Cartoning Machine is popular for pharmaceutical & food industries. It is designed by hexagon shape, which is good for small working space. Any kind of boxes include folding tap, gluing seal or one-touch...etc. all the boxes can be worked basing on customization.

There is an option feature of remote control system to monitor machine work and help manager know well about machine working condition.

### **Features**

- Compact size machine with turntable design could save working space; Unique hexagonal frame improves machine flexibility in a production line.
- The stainless steel frame and anti-rust parts of the whole machine meet the needs of various industries.
- Custom-designed for intelligent manufacturing could reduce costs and improve efficiency.
- Applicable box type: Flat tap, gluing seal & one-touch
- Can be made to fit auto feeding or semi-auto feeding system.
- Recommended to industries of food, such honey can, pharmaceutical, such as eye drop bottle & any other products, which must be fed by vertical position.

### **Specification**

- Machine Dimension: 1269(L) x 1099(W) x 1700(H) (m/m)
- Power: 3 $\phi$ 220V 50/60HZ 400W
- Packaging Speed: 80 (Boxes/Min)
- Carton Size: W:20~100 H:20~100 L:60~220
- Air Pressure: 5 (Kg/cm<sup>2</sup>)
