

## *Automatic small capping machine BCYG30-01*

This equipment is suitable for all kinds of bottles and jars that need to be screwed and capped. It is reliable in quality, simple and convenient in operation. It is the ideal equipment necessary for daily chemical, pharmaceutical, food, beverage and other industries. It can be used alone or together with other filling lines.

### **Features:**

- Different sizes of caps can be pressed and capped by changing the capping head.
- HMI touch screen operation, PLC control, high degree of automation and simple operation.
- The conveyor belt has independent stepless speed adjustment, simple structure and easy operation and maintenance.
- The outer cover and main parts are made of 304 stainless steel, which meets the requirements of food and drug hygiene.

**Technical Parameters:**

Model	BCYG30-01
Production capacity	0~30 Bottle/min
Scope of application	Tank diameter: 10~150mm Tank height: 60~300mm (special specifications can be customized)
Voltage	110/220V 50/60Hz
Power	0.7Kw
Operating air pressure (compressed air)	0.5~0.8Mpa
Weight	300kg
Overall dimensions	L : 1600mm W : 700mm H : 1500mm
