

SPK-40 Semi Automatic Carton Erector Machine

All manipulators are custom designed to solve your handling problem and to suit your particular application and working environment.

All are designed to satisfy the requirements of International Corporations (ergonomic, safe, easy to use, reliable and durable) and all meet the International Standards of Health and Safety.

The manipulators can be configured to suit your application and work area. They can be supplied in many configurations - Column Floor Mounted; Overhead Fixed; Overhead Trolley Mounted; Portable Base Plate; Floor Trolley Mounted.

Features

1. Vertical storage, cartons can be added at any time without stopping the machine;
2. Suitable for forming and sealing cartons of the same size.
3. Manually adjust to change the carton sizes (finishing in 2-3minutes);
4. Case Erector adopt advanced photo electric induction control system
5. Rationally designed, the forming, folding and sealing process are accomplished simultaneously;
6. Cutter Safety system to prevent hands form stabbed by the cutter

Technical Parameters

Model	SPK-40
Production speed	12 ctns/min
Power supply	110V/220V, 1 ϕ , 50-60HZ 200W
Carton size(mm)	L250-450xW150-400xH100-400
Air compressing	6kg/cm ³
Air consumption	450NL/MIN
Machine dimension	L2000xW1900xH1450mm
Machine weight	450KG
Adhesive tape width	48/60/75MM
