

GZP-150 High-speed Shuttle Pad Packing Machine

The GZP150 automatic shuttle pad packaging machine is suitable for packaging medicines, food, daily chemicals, cosmetics, electronics, and other industries, such as pharmaceutical plates, biscuits, bottles, tray-type containers, transparent soap, and other pieces.

Features

1. Double-frequency conversion motor control, bag length is set and cut.
2. PLC control, human-machine interface, convenient and fast parameter setting.
3. Precise temperature setting, suitable for all types of packaging materials.
4. The high sensitivity of the electric eye for tracking the color of the label makes the sealing position more accurate.
5. Positioning stop function, no knife sticking, no film cost.
6. Equipped with an automatic medical board feeder, which can be used to automatically feed aluminum and plastic medical boards of various specifications.
7. Accept a servo motor for unloading.

Technical parameters

Model	GZP-150
Efficiency	30-150 (packings/min)
Package size	L(70-200)×W(30-150)×H(5-45)mm
Maximum film width	400mm
Power supply capacity	AC 220V/50Hz, 5.0Kw
Equipment weight	950kg
Overall dimensions	3400x970x1740 mm (standard machine)
