

## *Dry Powder Filling Machine*

Vitro Pharma Machine provides Dry Powder Filling Machine which is specially designed for the pharmaceutical industry to fill powder in the Vial. In this Dry Powder Filling model, dry injection powder filling & stoppering machine is carried out on a single frame structure.

We, Vitro Pharma Machine offers Dry Powder Filling Machine for faster and stable performance working support and support the demands of enhancing production efficiency as well as reducing production costs. This machine is suitable for pesticides, glucose, powder material like coffee powder, spices, and others; can also be offered with the support of optional accessories as demanded by the customers.

### **Features**

- No Vial – No filling system provided with the powder filling machine.
- Easy to operate
- High quality
- Acrylic cabinet to avoid dust particle during operation
- Safety guards for trouble-free operational
- Dust collection unit
- Consistent working performance

## Technical Specification

<b>Output</b>	20 to 50 bottle per minute depend on powder bulk density & neck dia of container
<b>Capacity</b>	2 Gms to 100 Gms with help of auger & funnel
<b>Accuracy</b>	$\pm 3 \%$ Depend on powder Density & Neck Dia. of bottle
<b>Electrical Rating</b>	1.5 HP
<b>Power required</b>	415 volts, 3 phase, 50 H
<b>Dimensions</b>	1500 L X 1000 W X 1700 H
<b>Input specifications</b>	20 to 80 mm diameter, 50 to 200 mm height
