

GPA-50P Four Direction Belt Driven Carton Sealer

Four direction belt driven carton sealer uses BOPP tape seal, with BOPP tape seal, box can be sealed smoothly. The size can be adjusted manually according to the box's size which is easy and convenient to replace labours, increasing work efficiency up to 30% and saving 5%-10% consumables. This machine is an ideal option for saving costs and increasing producing efficiency. It could be widely used in food, medicine, toys, tobacco, daily chemicals, electronic tobaccos and other domestic industries.

FEATURES

- Durable accessories: Made by independent technology, using imported parts, electrical components
- Easy to operate: Automatically adjust width and height according to the box size
- Belt driven: Driven by belts on both side, sealing from top and bottom, economy stable and fast
- Security: Equipped with blade guard, avoiding getting injured while operating.
- Saving labours: All the operations can be done automatically to achieve packing unmanned.
- High applicability: This machine not only can work independently, but also could work with automated assembly line
- Gurki can provide non-standardized customization services for this machine according to the needs of customers.

SPECIFICATIONS

| MODEL | GPA-50P |
|---------------------|----------------------------|
| Conveyor speed | 18m/min |
| Carton Size | L150-∞×W150-500×H150-500mm |
| Power Supply | 220V 50/60Hz 1Phase |
| Power | 360W |
| Adhesive Tape Width | 55-72mm |
| Air Consumption | / |
| Air Compressing | / |
| Table Height | 600+150mm |
| Machine Dimension | L1000×W850×H1350mm |
| Machine Weight | 140KG |
